

Project Design Phase-II Technology Stack (Architecture & Stack)

Date	02 July 2026
Team ID	
Project Name	Heart Disease Analysis
Maximum Marks	4 Marks

Technical Architecture:

The Deliverable shall include the architectural diagram as below and the information as per the table1 & table 2

Example: Order processing during pandemics for offline mode

Reference: <https://developer.ibm.com/patterns/ai-powered-backend-system-for-order-processing-during-pandemics/>

Technical Architecture:

The Deliverable shall include the architectural diagram as below and the information as per the table1 & table 2

Technical Architecture – Heart Disease Analysis

- All processes (application logic / technology blocks) are represented.
- Infrastructural demarcation (Local / Cloud) is indicated.
- External interfaces – Tableau Public (for publishing dashboards).
- Data storage components – CSV dataset and Tableau workbook.
- (No machine learning model required for this project.)

Table-1 : Components & Technologies:

S.No	Component	Description	Technology
1.	User Interface	Dashboard for users to interact with visualizations	Tableau Public
2.	Application Logic-1	Data import and preprocessing	Tableau Desktop
3.	Application Logic-2	Data visualization and chart creation	Tableau
4.	Application Logic-3	Dashboard and Story creation	Tableau Dashboard & Story
5.	Database	Dataset stored locally	CSV File
6.	Cloud Database	Not Applicable	N/A
7.	File Storage	Store Tableau workbook and dataset	Local File System
8.	External API-1	Not Applicable	N/A
9.	External API-2	Not Applicable	N/A
10.	Machine Learning Model	Not Applicable	N/A
11.	Infrastructure (Server / Cloud)	Project executed on local system	Windows PC / Tableau Desktop

Table-2: Application Characteristics:

S.No	Characteristics	Description	Technology
1.	Open-Source Frameworks	Data visualization platform	Tableau Public
2.	Security Implementations	Local storage and controlled project access.	Windows Security
3.	Scalable Architecture	Additional datasets and dashboards can be added easily	Tableau

S.No	Characteristics	Description	Technology
4.	Availability	Dashboard can be published and accessed through Tableau Public	Tableau Public
5.	Performance	Efficient visualization of 4,500 records using optimized Tableau worksheets	Tableau Desktop
